

Optimal management of energy resources in greenhouse crop production systems

P.J.M. van Beveren, other authors can be here

Background

The style of the poster can be changed by changing the option

`\usetheme[<option>]{PosterWUR}` to

- ▶ green
- ▶ blue
- ▶ gray
- ▶ greenlogos
- ▶ bluelogos
- ▶ graylogos

This is a smallHead

The template uses a 15x25 grid to place textblocks. Each column has a width of 7. A gray line can be added by the command `\Line`. The commands `\LHead` and `\smallHead` make blue headings. Commands `\TPHorizModule` and `\TPVertModule` can be used to resize figures etc.

Goal

More text can be placed over here.

This is a figure

Figure 1. This is a caption

Test

Text can be placed over here.

Figure 2. Another figure

Results

Table 1. This is a table

Foo bar	Fantastical aardvarks			Spelunking elephants		
	A	B	C	A	B	C
5	87	5	2	82	18	48
6	5	43	4	7	47	4
7	7	18	63	2	9	99
